Is your congregation getting the most from its church insurance?

Have you found yourself:

- wondering whether your congregation is adequately insured?
- watching insurance costs continue to rise?
- considering whether it's time to evaluate your coverage or get new quotes?

You don't have to figure it out alone.

What if we could work together?

The Northeastern Ohio Synod is bringing congregations together with **Republic Insurance Group, broker Nik Fabianich, and Glatfelter Ministry Care Group** to explore what may be possible when we work together.

By bringing more congregations to the table, we may be able to increase our collective buying power and create new insurance opportunities for congregations across our Synod.

Join us **Thursday, October 15, at 7:00 pm on Zoom** to learn more, ask questions, and explore whether this opportunity could be a good fit for your congregation.
